CORRECTION FOR OUR FEBRUARY HEALTHBEAT NEWSLETTER

Mobile Dental Van Patient Visits

A typo tripped up one of our newsletter stories last month. We'd like to correct the error in our Mobile Dental Van story: our Mobile Dental Van team provided 3,254 patient visits from March 2017 through mid-February 2019. Our update last month erroneously stated our Mobile Dental Van saw 20,334 visits through the mid December 2018. That truly would have been a breathtaking schedule!

The total number of community members served at the Mobile Dental Van remains the same: as of mid-February, our team has provided care to 1,222 patients. Dental services available at the Mobile Dental Van include dental cleanings and preventative care, X-rays, and fillings.
