FOUR LEGGED FURRY FRIEND VISITS OUR GLENWOOD TESTING SITE

Testing for COVID-19 and Antibody Testing is Now Available

Mountain Family Health Centers is testing those with symptoms for the Novel Coronavirus 2019. PCR Testing is by appointment only at our Glenwood Springs, Basalt, and Rifle locations. Symptomatic individuals may also call Mountain Family to schedule a telehealth appointment to assess symptoms and to determine appropriate action. Those with primary care providers outside of Mountain Family Health Centers should obtain a referral from one’s health care provider after it has been determined that the symptoms are suspected to be COVID-19. Mountain Family is also conducting antibody testing which may be done when you schedule an office visit in our clinics in Glenwood Springs, Basalt, Rifle, or Edwards. For more information about the types of testing, please click here.

Telehealth and in-person appointments may be made by calling Mountain Family at 970-945-2840.
DR. PERCY'S MULLET MARCH FUNDRAISER WAS A HUGE SUCCESS
by Dr. Matt Percy, Rifle Site Medical Director

So ends #mulletmarch. I am humbled by everyone's generosity in donating over $4,100 to Mountain Family Health Centers as well as all those who have reached out to say they appreciated the videos as a break from the stress of our global pandemic. Thank you for your support. Stay healthy and safe and have a wonderful summer!

SCHOOL-BASED HEALTH CENTERS COMING SOON
When the school year begins, we will be here for you

School-based health centers are an affordable, convenient option for ensuring children and adolescents have access to the health and wellness care they need to be healthy and successful in school. Students can go to the health center to receive their care at their school during and after school, the place where they spend most of their time.

Our Outreach and Enrollment Team can help parents and students apply for private or public health insurance to cover the cost of care. Parents who may have lost their employment or health benefits due to the COVID-19 pandemic, may now be eligible for Medicaid, federal subsidies for commercial health insurance coverage, or other financial assistance programs. Additionally, Mountain Family offers a membership program to families called Health Solutions. This program, which is not insurance, provides access to high quality, affordable integrated health care for a set monthly fee.

MOUNTAIN FAMILY HELPS WITH MEDICAID VIDEO PROJECT

In collaboration with Pitkin County Department of Human Services, Mountain Family providers Dr. Chris Tonozzi and Dr. Maria Roques along with Silvia Santana, Outreach and Enrollment Manager, Roni Morales, Care Coordination Specialist and Ligia Bonilla, Pitkin County Benefit and Outreach Specialist created various videos to explain the importance of Health First Colorado, Colorado's Medicaid program. They explained the importance of integrated care and how to enroll and use Medicaid as well as information on public charge, the CHP+ program and Colorado PEAK, an online...
service for Coloradans to screen and apply for medical, food, cash, and early childhood assistance programs.

For more information or assistance with any of these programs, click here.

**EXEMPLARY CARE AWARD: JULY 2020**
This month’s award goes to Cathy Lettice

"I want to acknowledge the incredible work the dental team does every day. It feels as though our dental team does not get enough recognition for their work. I am nominating Cathy Lettice who shared what she does every day to improve the lives of our patients. I have had the honor of getting to work with her for the past several years in Avon and Edwards and repeatedly have been impressed with her dedication. When I attend the Health Services Advisory Committee, all members speak so highly of her work to improve the dental health of the youngest, most vulnerable population." - Jenny Lang-Burns

**JULY 2020 MARIPOSA AWARD WINNER**
This month’s award goes to Wynette Jackson

"Wynette has been the most outstanding co worker I could ask for. We have been dealing with a very serious and critical assignment, and she has taught me to be tough, and precise while doing it. She has made testing ill patients in 90-degree weather especially fun, which is something only Wynette can do. Not a day goes by where she doesn’t ask if we’re doing good or need help with anything. Wynette is the type of person who will literally take the shirt off her back just to help you out. We are super lucky to have her here at Glenwood, there is no one like her!" - Jacqueline Vigil

WHAT WE'RE READING
Today, the 643,000 DACA recipients in the United States can breathe a little easier

After the Supreme Court's 5-4 decision allowing the Deferred Action For Childhood Arrivals Program to remain in place, calling the Trump administration's rescinding of the program “arbitrary and capricious”, it's been a cause for celebration-if a cautious one- by advocates and the "Dreamers".
